Subject: [Rfiwatch] Save the date! Fifth IUCAF Spectrum Management School for Radio Astronomy, Stellenbosch South Africa, 2 - 6 March 2020

Date: 13 October 2019 at 15:09

To: RFIWatch (E-mail) RFIWatch@nrao.edu

IUCAF and the South African Radio Astronomy Observatory (SARAO), together with CRAF and RadioNet are pleased to note that the Fifth IUCAF Spectrum Management School for Radio Astronomy will occur in Stellenbosch, South Africa 2 - 6 March 2020.

IUCAF spectrum management schools were previously held in 2002 (Green Bank, USA), 2005 (Castel San Pietro Terme, Italy), 2010 (Mitaka, Japan) and 2014 (Santiago, Chile) and were important milestones in radio astronomy's efforts to preserve access to the radio spectrum.

A website and more detailed formal announcement of the school will be forthcoming shortly.

Inquiries may be addressed to iucafchair@iucaf.org

regards

Harvey Liszt, Chair IUCAF
<http://www.iucaf.org>

The fine print:

IUCAF is supported by the IAU, URSI and COSPAR

RadioNet: This event will receive funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 730562 [<https://www.radionet-org.eu/radionet/RadioNet>].
