

Spectrum Management School 2025 -- Announcement

Dear colleague,

We are excited to announce that we have made the decision to hold the IUCAF Spectrum Management School at a new location and on revised dates. While this change was prompted by circumstances beyond our control, we are confident that the updated plan will offer a productive setting for SMS2025.

The Spectrum Management School will now take place in **Alcalá de Henares, Madrid, Spain**, at the following venue:

**Centro de Investigaciones de Ciencias Geográficas y Astronomía
Observatorio Astronómico Nacional
C. Escultor Claudio, 6A
28805 Alcalá de Henares
Madrid, Spain**

New dates: **Monday, 29 September to Friday, 3 October 2025**

We kindly invite all participants to (re)submit their pre-registration via the following link, as the form has been updated with new questions:

<https://forms.gle/kPjpQMjHDbBkxc2w7>

If you have already pre-registered, we ask that you please revisit the form to update your information, as some newly added questions require your input.

Pre-registration is important: due to space limitations at the venue, attendance will be **limited to 50 participants**. Early registration will help us plan accordingly and ensure your spot.

Please do not hesitate to reach out with any questions. Further logistical information will be shared shortly.

With best regards,

Harvey Liszt iucafchair@iucaf.org

Tasso Tzioumis Tasso.Tzioumis@csiro.au

Greg Hellbourg ghellbourg@astro.caltech.edu
